

# Alexia Weill Stone Sculptor

Art+Real Estate with a Higher Purpose

May 2019 New York City

## About

The artist reveals the spirit of a stone. Before sculpturing each poetic piece, the artist communicates with the raw stone and harmonizes herself along with the client and or the project, and effortlessly delivers a one-of-a-kind priceless work-of-art.

Born in Paris, French-Swiss Alexia Weill is based near Vevey, in Switzerland for over a decade. AW. Atelier is located near Montreux. Her late grandfather owned one of the largest art gallery in Paris in his days.

The **Circle of Life** Exhibition represents moments of inspiration received by the artist and translated into the stone. A vision is realized which reveals a present-time story, representing a connection to the eternal cycles of creation, and to eternity.

## Note:

The **Weft** is the essential element invisible to our eyes connecting all living things and intertwining and interconnecting energies within and around us.

It is an omnipresent element, which we can feel intuitively as a sixth sense.
